

Item Stock Availability Import

Do you have vendors that provide daily quantity updates for their products in their locations? R3TX can assist with an automated download, usually via SFTP, to bring their stock availability to your TrulinX server and display in the **Item Availability Tool**. Increase your drop shipments!

Sample item download

We will work with your vendor data and automatically format the item file to match the TrulinX import process.

The screenshot shows two overlapping windows from the TrulinX system. The top window is 'Item Maintenance' for item 'VQ4401-51' (SMC VALVE 24VDC). The bottom window is 'Item Availability Inquiry' for the same item, showing a table of stock availability across various locations.

Location	Description	Qty Available	Qty Excess	Qty Committed	Qty Allocated	Qty Released	Stock UOH
MAIN	Rapid Control Service	26.00	0.00	0.00	0.00	0.00	EA

The screenshot shows an Excel spreadsheet with a table of item data. A blue arrow points from the text above to the spreadsheet.

Item	Vendor	Qty in Indy
100907-4241-MGP020	600SMC	31
10-AR20-N02B-NZ	600SMC	3
10-MS-5J	600SMC	6
10-VQ110U-5MO-X46	SMC-599	13
111511-5B	SMC-601	2461
111636	600SMC	0
11217	600SMC	10
11345-40B	SMC-601	27
11345-5B	SMC-601	118
113466	600SMC	16
123128PA	600SMC	354
12314PA	600SMC	72
12316	600SMC	27
131534	600SMC	1286
131634	600SMC	173

TrulinX Item Availability Update Job

This import job is a standard feature of TrulinX. We will help schedule this job to run daily and the item stock numbers will be ready when your sales team needs them!

The screenshot shows the 'Vendor Item Availability Update Job' configuration window. The 'Job ID' is set to 'DAILY' and the job name is 'DAILY SMC STOCK LOAD'. The 'Import textfile' path is '\\TXSRVR\c\$\HELP\SMC-Item-Availability\TX-SMC-QOH.txt'.
